FOOTBALL

**Classic 25mm is ideal for areas of light footfall, evening hangouts and chilling.**

### 35mm

- The go-to choice.
- Bodyline 35 mm is designed for spaces with medium footfall.
- This is what you need to create the perfect office breakout zones.
- The medium pile height allows the perfect natural grass feel, easy to clean and maintain.

### 40mm & 50mm

- Bodyline 50 MM is the perfect solution for areas with heavy footfall.
- They serve both aesthetic and practical purposes with lush green fibres providing a terrific natural look.
- Along with providing a cushiony feel and underfoot comfort, it is pet friendly\* too.
- The fibres are soft and do not cause any skin rashes or itchiness.

### 10mm

- The economy choice
- Mainly used for decoration purpose
- Ideal for exhibition carpet and decor

### 15mm

- Multisport Grass
- Cricket , Golf , Hockey ,Tennis ,Gyms
- Putting Green , Certified Product

# BODYLINE ARTIFICIAL GRASS

## Perfect lawn

No watering. No mowing. No more weekends spent working on the yard. Our low-maintenance, Earth friendly artificial grass can help eliminate the cost of lawn maintenance as well as reduce your monthly utility bills. You may even qualify to get money back from your local water authority.

**BioCel™ technology** replaces petroleum based polymers with renewable resources.

**Heatblock™ technology** keeps surface temperatures up to 20% cooler than similar turf.

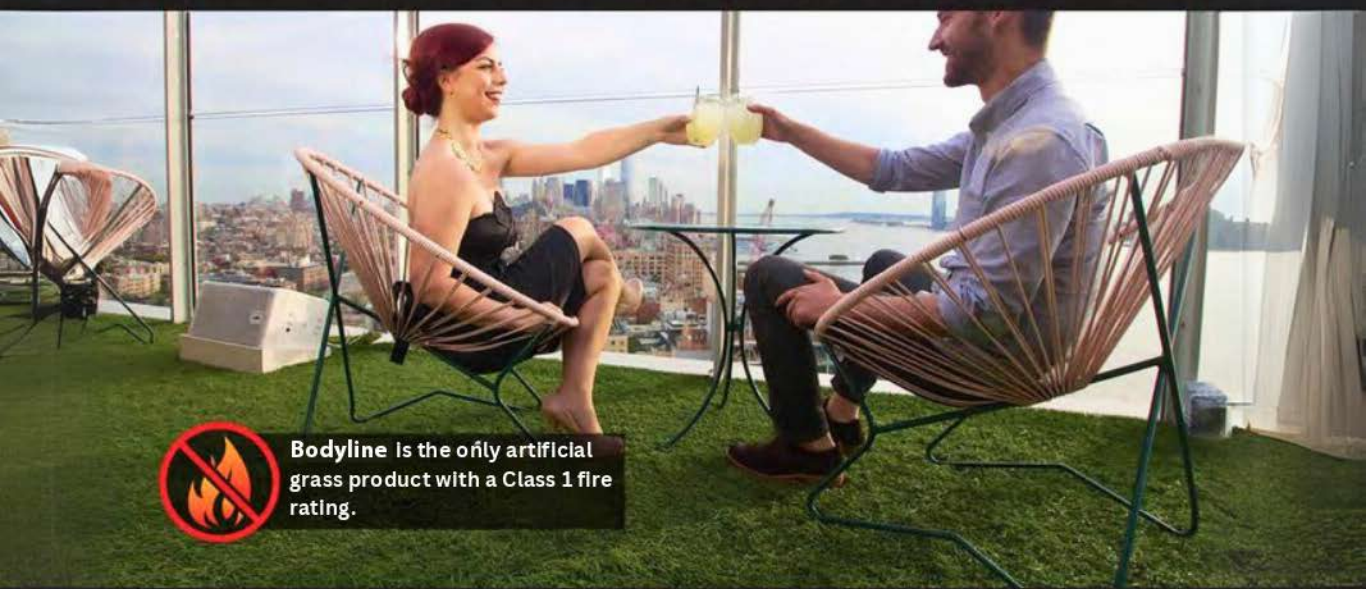

**EnviroLoc™ backing** 'Locks' in turf fibers for lasting beauty and longer life expectancy.

## Urban living

Grass in non-traditional spaces such as your roof, deck or patio are great examples of how Spectrum grass can transform once unused areas into functional outdoor living spaces. Our products allow grass in places once thought not possible and last longer than wood or complete decking.

**Bodyline** is the only artificial grass product with a Class 1 fire rating.

## Safe for pets

Pets stay clean. Pets stay healthy. Bodyline products help protect against disease and other harmful pests. Best of all, no more muddy paws in the house no matter what the weather maybe like. With our Pet intallation options, we can create perfect pet paradise specially for your pets.

## Safe for kids

Safety first. Safety built in. Best of all, no more grass stains. Under swings and at the foot of slides are two great examples of high-traffic areas difficult to maintain and keep safe. We've developed consistent, low-abrasive play surfaces allowing for safe use of ANY type of playground equipment.

For maximum safety, ask about IPEMA™ Certified Playground Installation options.
