# THE BEST COMMERCIAL FLOORING SOLUTIONS FOR OUR CLIENTS

Bodyline provides various types of industry's best flooring solutions for both commercial and residential/home use. We have a wide variety of floorings like rubber gym tiles or rubber rolls, interlocking floor tiles for the weights area which prevents damaging the floor and we also have floorings of grass, synthetic acrylic, PP tiles, EPDM etc.

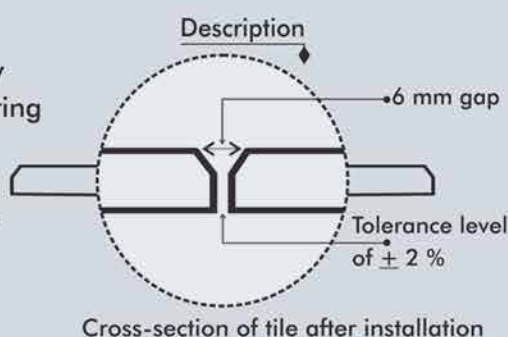

These floorings accentuate the interior, drive the design decisions and decor of both commercial and residential/home projects.

If you have any questions, please feel free to contact us on **83350 68089 / 98360 62590** or mail us at **bodylinesports@gmail.com**

Type of surface —  
Suited as gymnasium floors.

Aim —  
Its biggest advantage lies in its high durability and excellent load bearing capacity, ensuring that one need not worry about any replacement for a long time.

## RUBBER FLOORING

Naturally resistant to mould and mildew, rubber floors are designed for durability, versatility and slip resistance, plus they're very quiet and comfortable under foot. Choose from textured, smooth, and environmentally friendly tiles, in various colors and patterns to match any design or application from our wide collection.

## COLOR RANGE OF INTERLOCKING GYM RUBBER TILES

Rubber tiles with interlocking patterns are available (like a puzzle) making it even more convenient and easy for installation. These tiles can be installed in different colour combinations and patterns which can add to the gym interior.

## COLOR RANGE OF HEXAGONAL GYM RUBBER TILES

Hexagonal Rubber Tiles are purely made from recycled rubber, built to last with maximum durability and worry-free quality. It's extremely anti-slip and provides cushioning on the floor. Our Hexagonal rubber tiles can withstand virtually for any weather or climate condition.

## COLOR RANGE OF 22MM SQUARE GYM RUBBER TILES

Gym Rubber Tiles are an eco-friendly flooring option and they are very tough and durable against various kinds of physical abrasions. These are environmentally sustainable tiles and can last in physically harsh areas. This is due to the recycled rubber material that they are made from. They can handle high volumes of foot traffic or the shock and impact of heavy objects with ease. This enhanced physical strength prevents damage from occurring to the subfloors under the tiles.

## LAMINATE FLOORING

Laminate flooring is available with a number of color and design options. It comes at a reasonable price and is a budget friendly as well as an eco-friendly choice. It is extremely easy to install, usually taking as little as a day or two to complete a full installation.

Laminate flooring is a sturdy material and will not crack or break easily. It can withstand high traffic and can handle weights. These two are the main attributes that make it favorite across the globe.

Laminate Flooring has the most diverse selection. It is made for residential and commercial projects. It also offers significant advantages in design capability, easy to install and low maintenance and cost.

Suitable for office, boutiques, conference rooms, sales rooms, school kindergardens, kitchen, private and commercial areas with intensive use etc.
