PROFESSIONAL RANGE 2026

TUNTURI®

FEEL BETTER EVER DAY

100+ YEARS OF FITNESS EXPERIENCE

We are Tunturi, pioneers in the world of fitness. Established in 1922, we revolutionized the industry in 1969. That year, we introduced the world's first exercise bike ergometer for home use. Fast forward to today, our assortment consists of a wide range of cardio machines, strength equipment and accessories.

TUNTURI FAMILY

We value long-term partnerships built on personal connections and trust. Joining us means becoming part of the Tunturi family, where collaboration and mutual success are at the heart of everything we do.

HANDLES COME WITH HAND PULSE, SPEED CONTROL AND EMERGENCY STOP BUTTONS.

THE ERGONOMIC DESIGN OF QUICK ADJUSTMENT KNOB FOR CONVENIENT AND COMFORTABLE ADJUSTMENT WHILE TRAINING.

CHAIN AND WEDGE SHAPED BELT COMBINED TRANSMISSION HELPS TO REDUCE NOISE YET KEEPING TRANSMISSION POWERFUL.

THE MAGNETIC RESISTANCE PART IS PLACED ON THE SIDE FOR EASY MAINTENANCE.

ERGONOMIC DESIGN OF STEP WITH :
LENGTH OF 559 MM.
WIDTH OF 254 MM
HEIGHT OF 202 MM.

EQUIPPED WITH INFRARED SENSOR SWITCH TO PROVIDE DOUBLE PROTECTION.

THE FOOT PEDALS ON BOTH SIDES, WHICH IS EASY TO USE.

COMES WITH

TOUCH SCREEN TFT PANEL

VIRTUAL TRAINING EXPERIENCE

MULTIPLE PROGRAMS

20 RESISTANCE LEVEL

SPEED 25-158 STEPS / MIN

By training **more** muscle groups & creating **greater** activation within those muscles, Helix® burns **more fat** and delivers **faster results** in less time than any other cardio trainer, making it the world's most effective workout.

But lateral training has major benefits beyond fitness as well. As the only cardio trainer that works the body in **all 3 dimensions of human motion**, lateral trainers have been clinically shown to reduce knee & hip pain due to arthritis, injury or joint replacement surgeries.* They are also effective at

reducing age-related fall risk, having been clinically shown to improve strength-related balance by an average 59%.***

Eco friendly & Ideal for small spaces:
tiny footprint
+ no electricity needed

Because of these competitive advantages, Helix® trainers are used by some of **the world's most elite pro athletes**, such as the Los Angeles Lakers the New England Patriots & the Cleveland Cavaliers, yet their *therapeutic* applications make them equally well suited for injury rehab and prevention for those in search of "active aging."

*2022 clinical study
California State Univ
Long Beach

**2011 clinical study
Human Performance Research
Lab, University of Tampa

***2015 side step study

Increased Muscle Activation:
Helix® lateral trainers reach target heart rates more quickly & produce increased muscle activity when compared to "traditional" cardio like ellipticals.**

Vastus Lateralis:	50% more
Adductors:	42% more
Gluteus Maximus:	39% more
Gluteus Medius:	33% more
Obliques:	55% more
Rectus Abdominis:	13% more
Spinal Erectors:	11% more
Target ♥ Rates:	23% faster

Cardio that delivers strength training caliber results

Improves joint health over time

Used by PTs to rehab bad knees

FEATURES

- **Resistance Levels:**
8 manually controlled
- **Computer Display:**
LCD
- **Feedback:**
Real time calories, RPM, pulse, activity, METS, watts and time
- **Resistance Method:**
ECB Flywheel
- **Maximum User Weight:**
150 kg

Traditional Cardio

Bi-directional to shift workout focus.
Pedal in for extra focus on inner thighs & glutes, pedal out for extra focus on outer thighs, glutes & hips.

**TRAIN
WHERE
YOU FEEL
THE BEST**

Aircraft spec 5mm American LOOS cable with 4,200 lbs breaking strength. All fittings tested for 300,000 cycles using full weight stack.

Strong ABS shroud for maximum safety and super stylish look.

Unique tube size of
RT40*118*3 RT50*100*2.5 YD72.8*141.7*3

Pu moulded seats and long lasting upholstery

Multi handle grips for various workout requirements

Tubing thickness range from 2.5mm to 3mm. Electro-welded construction for maximum strength and stability

Pulley size of $\phi 114$ makes the movement of cable very smooth.

SL-9501 CHEST PRESS

Pre-stretch allows easy entry and exit, and increase the range of motion

The 3-bar linkage structure offers smooth, convenient adjustment

Multi-position handle bars allow variety workout

Double parallel grips replicates chest fly movement effectively

WEIGHT STACK : 235 LBS

LXWXH : 155.2X123.1X150.3 CM

SL-9502 DIVERGING LAT PULLDOWN

Uniaxial structural movement ensures complete & efficient muscle workout.

Aluminum casting handles stand for the premium positioning.

Adjustable foam roller offers supports during workout for users at various height.

WEIGHT STACK : 235 LBS

LXWXH : 130.5X122.4X109 CM

SL-9503 ARM CURL

Ergonomic handle bar is self-adaptive to meet various users requirements

User-friendly design allows easy entry and exit.

Independent arm motion structure allows exercise simultaneously or alternately.

WEIGHT STACK : 200 LBS

LXWXH : 112.2X158.3X156.3 CM

SL-9505 LEG EXTENSION

Back support pad allows one-hand adjustment. Under thigh support designed to offers comfort and reduces stress on hamstrings during workout

Adjustable foam roller and back support pad allows users at different height for a desired position

Pivot mark in yellow allows users to determine correct position for knees

WEIGHT STACK : 200 LBS

LXWXH : 140.1X122.7X156.3 CM

SL-9506 SEATED LEG CURL

Adjustable foam roller is designed to adapt the natural movement required by various users

Back pad support is adjustable in a sitting position

Pivot mark in yellow allows users to determine correct position for knees

WEIGHT STACK : 200 LBS

LXWXH : 149.5X127.5X156.3 CM

SL-9508 ABDUCTOR / ADDUCTOR

Dual station designed to train outer and inner thigh muscles

User-friendly design allows easy entry and exit. Weight stack in front is for privacy purpose.

The double foot platform accommodates various users

Large size pads insure comfortable support for various users

Easily adjustable starting position offers wide range of motion

WEIGHT STACK : 200 LBS

LXWXH : 78.4X163.6X156.3 CM

SL-9509 TOTAL HIP

Adjustable foam roller provide a personalized fit for isolateral training

Various workout for hip

Handle bars on sides provide user stabilization and support

Adjustable platform suitable for various users

WEIGHT STACK : 200 LBS

LXWXH : 97.2X138.1X156.4 CM

SL-9510 LEG PRESS / CALF RAISE

Foot platform and handle bar for easy entry and exit

Adjustable sliding rack accommodates various users for a ideal range of motion

Foot plate angled at unique 4° recline to save ankles and knees from injury

WEIGHT STACK : 295 LBS

LXWXH : 181.3X117.6X156.2 CM

SL-9512 SHOULDER PRESS

Independent converging movement offers natural and ergonomic workout

Counter weight enables user to start easily

Multiple grips allow to target front and middle deltoids effectively

WEIGHT STACK : 235 LBS

LXWXH : 155X149X156.4 CM

SL-9515 PEC FLY / REAR DELT

Dual station designed to train chest and rear deltoid muscles.

Option of multiple starting positions to meet various users training requirement

Variable circular motion can be achieved as required by various users

WEIGHT STACK : 200 LBS

LXWXH : 149.7X162.9X204.8 CM

SL-9516 STANDING CALF RAISE

To train calf muscles in standing position, provide a better training effect by combining user self-weight

Adjustable starting position enables user get into the machine in standing position without the need to bend down

Contoured shoulder pads are designed to give comfortable experience

Anti-slip footrests provide comfort and safety

WEIGHT STACK : 235 LBS

LXWXH : 119.2X119.7X175 CM

SL-9517 SEATED DIP

Rotating handles accommodate various users

Angled back support improves stability and comfort

WEIGHT STACK : 200 LBS

LXWXH : 142.8X130X156.4 CM

SL-9519 VERTICAL ROW

Independent arm movement allows isolation of back muscles separately

Foot pedals are positioned to give comfortable posture for various user

Uniquely designed handle grips provide are firm and solid grip

WEIGHT STACK : 235 LBS

LXWXH : 198.4X112.9X156.3 CM

SL-9520 WEIGHT ASSISTED CHIN / DIP COMBO

Dual station designed to give isolation to your complete upper back with weight assisted support

Multi-positional hand grips enables various users to perform triceps and chest dips effectively

WEIGHT STACK : 200 LBS

LXWXH : 139.4X160.8X228.5 CM

SL-9521 PRONE LEG CURL

Angled seat pad is designed to give support to core and spinal column, while stabilizing the hip

Pivot mark in yellow allows users to get correct exercise position.

WEIGHT STACK : 200 LBS

LXWXH : 118.5X144.3X156.3 CM

SL-9522 LAT PULLDOWN / SEATED ROW

Dual station designed to give training of vertical row and lat pulldown

Adjustable knee rollers suitable for various users

Large size foot plates for added comfort

Comes with two handles for variation

WEIGHT STACK : 295 LBS

LXWXH : 122.3X193.6X223.1 CM

SL-9524 LATERAL RAISE

Natural movement of rotating hand grips adapts to different size users

The Large arm pads for increased support

WEIGHT STACK : 200 LBS

LXWXH : 109.8X128.4X156.4 CM

SL-9525 ADJUSTABLE HI / LO PULLEY

Multiple training unit for working out upper and lower limbs comprehensively.

Compatible to attach with SL9527 four station and make it 5 station cable jungle with cable crossover

WEIGHT STACK : 295 LBS

LXWXH : 148.2X118.7X235.6 CM

SL-9527 JUNGLE MULTI GYM

Unique combination of 4 to be must stations in every facility.

Lat pulldown, Long pull, Pec fly / Rear delt & Hi - Lo pulley would cater to most of the upper body exercises

Compatible to attach with SL9525 hi-lo pulley and make it 5 station cable jungle with cable crossover

WEIGHT STACK : 235 X 4 LBS

LXWXH : 348.8X264.6X235 CM

SL-9525+SL9527OPT+SL9527 5 STATION CABLE CROSS OVER

WEIGHT STACK : 235 X 4 LBS

WEIGHT STACK : 295 LBS

SL-9527 OPT

CONNECTOR

Robust & strong built with multiple chin up handles

SL-9528 LEG EXT / LEG CURL

Dual station designed to give movements of leg curl and leg extension.

Back pad could be easily adjusted.

Pivot mark in yellow allows users to determine correct position for knees

WEIGHT STACK : 235 LBS

LXWXH : 135.1X131.9X156.3 CM

SL-9529 MULTI PRESS

Dual station designed to give movement of chest press, incline press and shoulder press.

Dual hand grips accommodate different size users

WEIGHT STACK : 235 LBS

LXWXH : 182.7X147.7X167.2 CM

SL-9530 DUAL ADJUSTABLE PULLEY

Dual adjustable pulleys are designed to give the possibility of performing three dozen exercises.

Ergonomically designed multiple chin up handles

Comes with standard pack of six various accessories

WEIGHT STACK : 200 X 2 LBS

LXWXH : 159.8X128.4X229.1 CM

SL-9534 ABDOMINAL / BACK EXTENSION

Dual station designed to train abdominal and lower back muscles

Double position foot pedals to accommodate various size users

Angled back support to save lower back from injuries

WEIGHT STACK : 235 LBS

LXWXH : 111.2X126.4X156.7 CM

SL-9538 HIP THRUST

Wide foot plate of 83cm x 50 cm covered with Anti-Slip rubber sleeve accommodates users of different heights and safety against slipping incidents

Toe Stopper at the top of foot plate for safeguarding any injurious mishaps

Soft material safety belt for enhanced comfort

Open design of safety belt combined with auxiliary on-board cushion, for easy entry and exit off the machine

Dynamic backrest moves with the motion during training provides full range of motion with added comfort

Weight Stack: 200 lbs

LXWXH : 149X123X156 CM

SL-9539 HORIZONTAL LEG PRESS / HACK SQUAT

Robust Frame for stability which must for a leg press

Unique adjustable back allows choosing between seated leg press or hack squat positions

Foot platform and handle bars for easy entry and exit

Superior quality shoulder pads for added comfort

Foot platform angled at 4 degrees recline which helps in saving ankles and knees from injury

Weight Stack 295 lbs.

LxWxH: 183.5 x 117.5 x 155.8 cm

STERLING SERIES

Easy to use, neat appearance, the SL line is a high quality commercial plate loaded series. The user-friendly design makes working out more simple, efficient, comfortable and satisfying.

Tubing: thickness range from 2.5 mm to 3mm, 50mmx100mm tubing, electro-welded to maximum integrity.

Color: black and red (Other colors are optional based on customer requirements)

Finish: Electrostatic powder-coated and heat cured after adhesiveness enhancement pre-treatment for superior durability

Compact - space efficient design requires minimal floor space.

Pad total thickness is 70mm.

Easy-to-use, flexible adjustments allow for optimal exercise positions.

NEOPRENE

4 IN 1 KETTLE BELL

The Reload Neo is built around a smart, ergonomic frame that lets you train in multiple ways:

1 Kettle bell Mode – Grab the main handle and move through swings, cleans, goblet squats and carries.

2 Dumbbell Mode – Hold the side grips for presses, rows, lunges and curls.

3 Double-Grip Ball Mode – Use both side handles together for controlled core work, Russian twists, halos and loaded carries.

4 Push-Up Stand Mode – Place it flat on the floor for stable push-ups and plank variations.
