PUSH UP STAND

SPECIFICATIONS :

- **HIGH ELASTIC EVA FOAM HANDLE:** The handles of the push-up stands are made of high elastic Eva foam, which provides a comfortable grip during exercise and reduces the pressure on the hands.
- **ERGONOMIC DESIGN:** The ergonomic design of the push-up stands helps reduce strain on the wrists and joints during push-ups, making it easier and safer to perform the exercise.
- **THICK RUBBER BASE:** The push-up stands come with a thick rubber base that provides shock absorption and stability, ensuring that the stands stay in place while you exercise.
- **DOTTED GRIP:** The push-up stands also have a dotted grip on the handles, which provides an anti-slip feature, ensuring a firm grip while performing the exercise.
